Re: 6th Grade NASA Field Trip

Lafayette Christian Academy is planning to take the 6th grade classes to Johnson Space Center during the 2025-2026 school year. We will travel via chartered coach bus(es). The one-day trip will cost approximately \$165/student including food. Chaperones will be needed (approximately \$135/chaperone). There may be limited seating available. Having your deposit ready will help to ensure your seat.

Start raising funds during the summer months. Mowing lawns, babysitting, and garage sales are excellent ways in which your child can participate in earning his or her own funds.

It is tentatively scheduled for April 23, 2026. More information regarding the trip will be given in the Fall.

In His Service,

Mr. Broussard

Elementary/Jr. High Principal
